Dewan's reply.—This is being done now whenever applications are made. The papers mentioned of course cannot be given when a Detail Survey and Settlement are not introduced into the Inam village.

Subject No. 184.

Detail survey of village sites.

Summary of discussion.—Village sites should be surveyed in detail and mapped, and the areas of house sites entered in the Village Account Form No. 10.

Dewan's reply.—Impracticable without much useless work.

Subject No. 185.

Musafarkhana required for Hindiganahalu market place.

Summary of discussion.—A Musafarkhana is very much required at Hindiganahalu market place.

Dewan's reply.—Other more urgent requirements have first to be provided for and Musafarkhanas would be useful in many much more important places.

Subject No. 186.

Right of grass in topes planted for charitable purposes.

Summary of discussion.—Topes planted for charitable purposes are brought under "Kharab" by the Survey, still the hakdars have a right to remove dry trees and plant new ones but the grass in the topes is included in Hulbanni and cattle allowed to graze there. This impedes the growth of trees and plants. The right of grass in topes ought to be likewise vested in hakdars.

Dewan's reply.—The Government takes no revenue from the grass in such topes. It is free grazing for village cattle, and is thus devoted to charity as are the topes themselves.

Subject No. 187.

Extension of Nelamangala Town.

Summary of discussion.—Nelamangala is a small town, but it is thickly populated, 4 or 5 families reside in each house. The town ought to be extended.

Dewan's reply.—The Deputy Commissioner will be asked to allot sites for extension of the town.

Subject No. 188.

Irrigation cess on dry Inam land converted into garden by private wells.

Summary of discussion.—It is unreasonable that irrigation cess should be charged on lands cultivated with garden crops with water from wells dug by the occupant in his dry Inam land.

Dewan's reply.—In such a case, the levy of irrigation cess is wrong. (*Vide* reply to a similar representation from the Chitaldroog District. Subject No. 105 *supra*). Orders will be given for revision if found necessary.

Subject No. 189.

Remission of Mohatarfa on Inamti Vattaram.

Summary of discussion.—Mohatarfa is charged on Inamati Vattaram occupied by persons who earn their living by labor and are too poor to pay house-tax. This ought to be remitted.

Dewan's reply.—Mohatarfa does not depend on the nature of the land on which the house stands. Poverty of the tax-payer is a different reason altogether. The Mohatarfa rules do not expressly allow remission for poverty, but in practice those who cannot pay are all excused by remissions in due course. (See also Subject No. 234 below.)
